Terrence Gillespie is a Photographer & Design Engineer.

Born in Lima, Peru he was introduced to the camera at a young age and his first images mimicked those of his maternal grandfather Pedro Paz.

His work explores themes of solitude, belonging and non-places - a term coined by Marc Augé that refers to anthropological spaces of transience where human beings remain anonymous.

He keeps an archive of images online at **http://smallvictories.com.au**

Terrence lives & works on Kabi Kabi Country / South East Queensland, Australia.
